

Draft Hardys Bay Foreshore Masterplan
(On Display 31/10/07 to 14/12/07)

Community Questionnaire

Preparation of the Draft Hardys Bay Foreshore Masterplan is now complete, following the overwhelming public interest and conjecture about the required improvements to the recreational precinct, in particular the Araluen Drive Reserve. The key areas include improvements to grassed areas, parking and stormwater drainage, the provision of a shared path and the installation of a children's playground.

The Draft Hardys Bay Foreshore Masterplan is presented with several planning options and takes into consideration the requirements of the council development control plans and comments from local representative groups.

Please can you assist Council by completing the following questionnaire.

1. For each precinct, which option do you prefer? Please tick only one for each precinct.

Precinct	Option A	Option B	Option C
1			
2			
3			
4
